OFFSETTING CARBON FOOTPRINT

THE TACIT & EAGLE SUSTAINABILITY VISION

Tacit and Eagle are committed to shaping the future of golf with sustainability collectively at our core.

We are continually striving to improve design, manufacture, and delivery of our products and make choices that are fair and considerate for both people and the planet.

KEY ACTIONS AND INITIATIVES THAT SUPPORT OUR SUSTAINABILITY VISION

CARBON OFFSETTING

For over 35 years, founder Richard Webb has reduced our carbon footprint and supported biodiversity by planting trees and creating wildlife habitats.

HOLE CUP RECYCLING PROGRAM

This initiative encourages customers to return used cups for recycling, reducing waste and offering credit towards future purchases.

SOLAR-POWERED MANUFACTURING

We've installed solar panels on our UK factory to power our machines, reducing fossil fuel reliance and carbon emissions while enhancing sustainability.

SUSTAINABLE PACKAGING

We prioritize using recycled, recyclable, and biodegradable materials in our packaging and consolidate shipments wherever possible to minimize environmental impact.

ELECTRIC VEHICLE FLEET

We are transitioning our fleet to electric vehicles to reduce fossil fuel reliance, lower carbon emissions, and minimize our environmental impact.

RECYCLED FLAGS

We are proud to offer flags and tubes made from recycled plastic, including ocean plastic, helping reduce pollution and support vital ocean cleanup efforts.

ECO-FRIENDLY PAPER & BAMBOO

We use FSC-certified paper and bamboo, ensuring they come from responsibly managed, sustainable forests that protect biodiversity and reduce environmental impact.

RECYCLED MATERIALS

Our EaglePlex and Consolidated Lumber use recycled materials, lowering carbon footprints, reducing landfill waste, and offering maintenance-free durability to minimize resource consumption.

SERVICES

Eagle provides services to support and enhance your golf club.

BRANDING

We have a dedicated branding team who are able to draw on years of design experience in developing, enhancing and elevating your club's brand.

HOLE MAPPING

Our hole mapping service incorporates the latest software and technology to create accurate maps in a variety of different styles.

COURSE MEASUREMENT

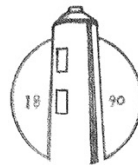

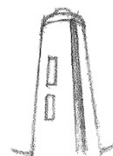

Eagle use the latest high precision GPS triangulation equipment to achieve measurements with industry leading accuracy.

EAGLE PLUS

Our digital platform for hosting World Handicap System™ data. Handicap tables, playing handicap calculator, local rules and more instantly available to your members and visitors.

BRANDING

They say first impressions count and none more so than your logo and branding. It is the first thing that potential customers will see and remember, and the strength of your brand plays a critical role in your potential success. Good branding gets you noticed, builds credibility and maintains the loyalty of your members.

As the leading provider of branding services to the golf industry, Eagle has the experience to develop and drive your club forward. Whether you are a new or established business, want to update and modernise, bring meaning to your club or just elevate yourself from your competition, let us bring your business to life with a well-designed logo and full documented brand guidelines.

“Your brand is the single most important investment you make in your business”

Steve Forbes

Editor in Chief, Forbes Magazine

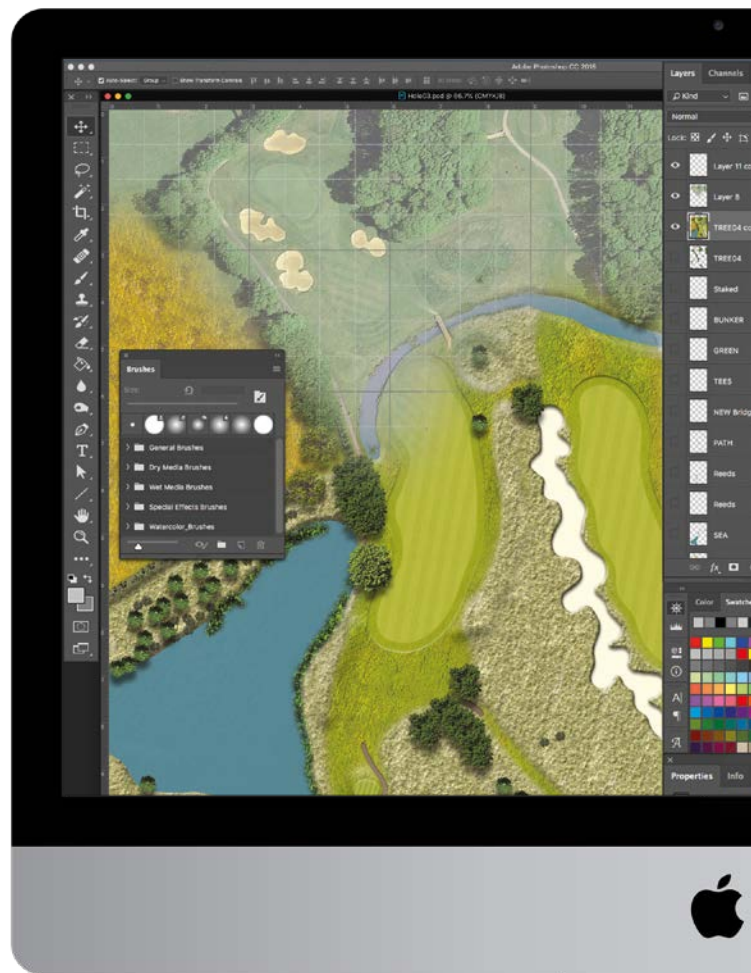

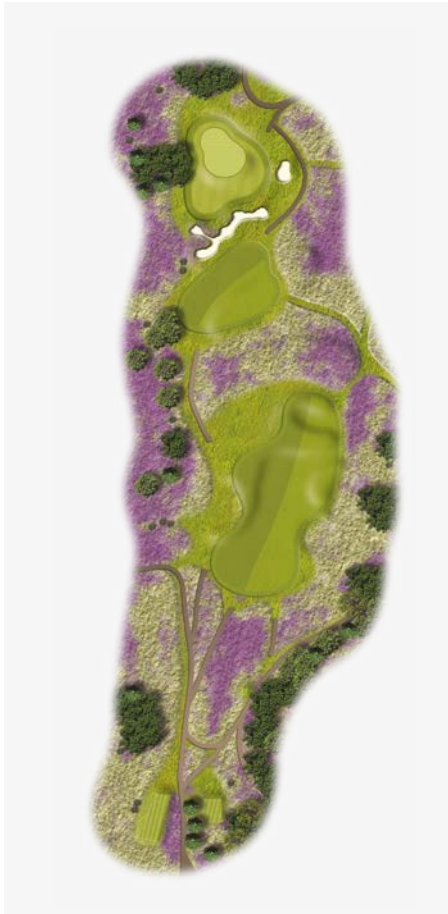

HOLE MAPPING

Using the latest software and satellite data we create accurate maps in a variety of different styles.

The overall course map is perfect for information signs around the clubhouse or towards the first tee which shows golfers the course layout and direction.

Individual hole diagrams are ideal for tee signage and can show direction of the hole, hazards and shape of the hole.

COURSE MEASUREMENT

ENGLAND GOLF

Eagle are certified to conduct course measurements for rating purposes.

To ensure the greatest accuracy available, the latest technology is used by our specialist surveyors who are based around the country providing a nationwide service. Our equipment produces measurements to within a 3mm accuracy.

Our course measurement service includes the issue of a full suite of certificates, ensuring that all data collected is compliant with WHS guidelines.

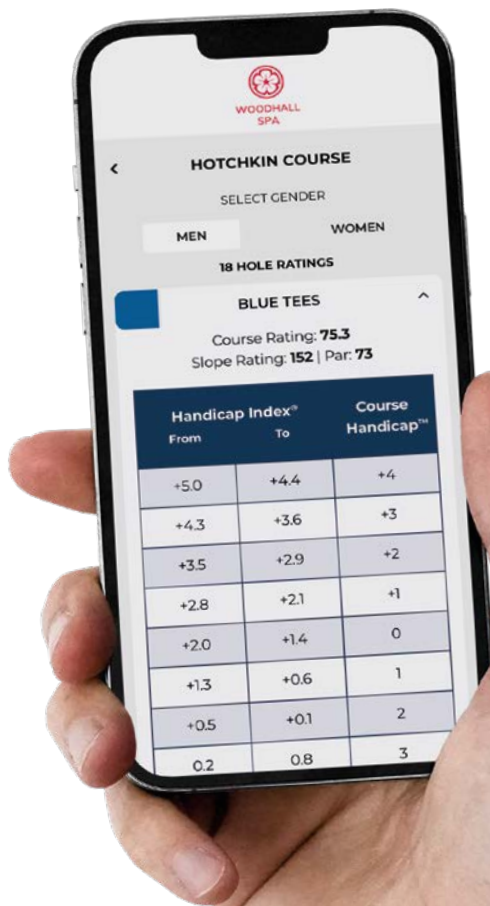

EAGLE PLUS

Give your members and visitors the edge with Eagle Plus!

Eagle Plus is a digital platform that gives immediate access to your World Handicap System™ data, for your members and visitors

It allows golfers to easily look up course handicap information for general play, as well as calculate their playing handicap for any competition format and tee, for strokeplay, matchplay and team competitions.

Eagle Plus boasts a range of features such as displaying local rules, club and visitor information, through to direct links to national and local golf governing bodies, with even more exciting features planned for the future.

Benefits of Eagle Plus

- ✓ Handicap tables for all your tees, playing handicap calculator, local rules and more.
- ✓ Unlimited player access.
- ✓ Data always up-to-date.
- ✓ Adaptable to any future changes.
- ✓ Instant connection via QR code.

SIGNAGE

Eagle are purveyors of first-class golf club signage, using the finest products and materials.

We manufacture quality signage to ensure that each step of the customer journey is represented. Our design and production teams will produce signs for the entrance, car park, clubhouse and course, all of which are designed to suit your specific requirements.

MOUNTS

TIMBER

Iroko hardwood is a very dense and durable kiln dried timber. It can be unstained, for a natural finish, or treated using Teknos, a water based stain and timber protective product that will ensure longevity for many years.

EAGLEPLEX PVC TIMBER

EaglePlex is a recycled polymer that is a durable alternative to natural timber. It is a highly engineered material, totally maintenance free and rigorously tested and refined to give maximum performance.

ROCK/SANDSTONE

Using some of nature's hardest and most resilient products, natural rock and sandstone can be shaped into impressive pedestals and monoliths that will give your course that unique and distinctive appearance.

CONSOLIDATED LUMBER

Consolidated lumber combines the natural beauty of real wood with the high performance of polyurethane. The textured surface creates a virtually maintenance free layer, resisting algae, fading and sun damage.

SUBSTRATES

ZINC

Acid etched zinc offers clubs a more traditional look on signage with the detail all hand painted, projecting a higher standard of quality. Zinc is also anti-corrosive and resists mould, mildew and fungus.

ALUMINIUM

Aluminium is an affordable, versatile product that can be cut to various shapes and sizes and wrapped in full colour vinyl which is hard wearing and weather resistant.

BRONZE

Bronze gives that timeless look and feel. It is a strong and highly durable alloy that resists corrosion and metal fatigue. Bronze is naturally weather resistant, requiring very little maintenance.

GRANITE

Granite has a glossy, stylish finish. It has fantastic durability, being one of the hardest natural materials which makes it resistant to scratches, chips and general wear and tear.

ENTRANCE

First impressions count and entrance signage is that opportunity to provide a warm welcome and introduce your brand.

Our design studio will work with you to ensure that your first impression is a lasting one.

CAR PARK AND CLUBHOUSE

Every club has a different set of requirements when it comes to the car park and clubhouse.

The one thing to achieve here is consistency in terms of materials, colour and appearance. The signage must ensure there is a coordinated message in these areas that reflects your brand identity and sets the tone for the experience that awaits.

DIRECTIONAL

Knowing where to go and what you have to offer is key to defining a memorable experience. Well placed directional signage will achieve this and allow the smooth circulation of customers around your venue.

HEALTH AND SAFETY

Ensuring the safety and well-being of all members, visitors and staff is paramount.

They want to feel safe and secure and the signage you choose here is key to providing that assurance that your policies and practices are there to protect and safeguard everyone.

MOVABLE

Small, movable signs play a crucial role in guiding players around the course. Made from weather-resistant materials, they can be easily relocated to indicate directions, mark hazards, or remind players of course rules.

COURSE INFORMATION

The aim is to provide all of the key information that a golfer needs before play and in the one place.

Eagle provides a bespoke design service to all golf clubs to ensure that specialist and often unique information can be represented clearly and consistently.

Choose from:

- Course map
- Yardage data
- Slope ratings
- Pin positions
- Dress code details
- Pace of play information
- Sponsorship
- Variable data using changeable message panels
- Poster holders
- Weatherproof clock
- On course maintenance magnet set

COURSE ARCHITECT PLAQUES

The history of the game of golf owes much to course architects. These were the pioneers of our game, embracing the natural landscapes to create courses that with the passing of time, are now renowned the world over.

From coastal masterpieces to inland gems, celebrate the life and legacy of some of the greatest course architects by paying tribute to them through traditional bronze plaques.

Abe Mitchell

PRINT

Eagle has a long established reputation of excellence in the design and production of golf club print collateral, which has been the mainstay of our company for over 30 years. The variety of golf printed products we offer is extensive and we assist with every stage of the design process, to deliver quality, matched with creativity.

Our design studio is able to incorporate club branding to all print collateral, utilising a variety of printing formats and materials. Eagle has a comprehensive range of specialist equipment, offering special finishes to your printed products, from creasing and perforation, to textured, matt lamination and spot UV.

Our range includes scorecards, course guides, bag tags, green fee tickets, stationery and marketing material that are all essential products for any club.

ECO-FRIENDLY PAPER & BAMBOO

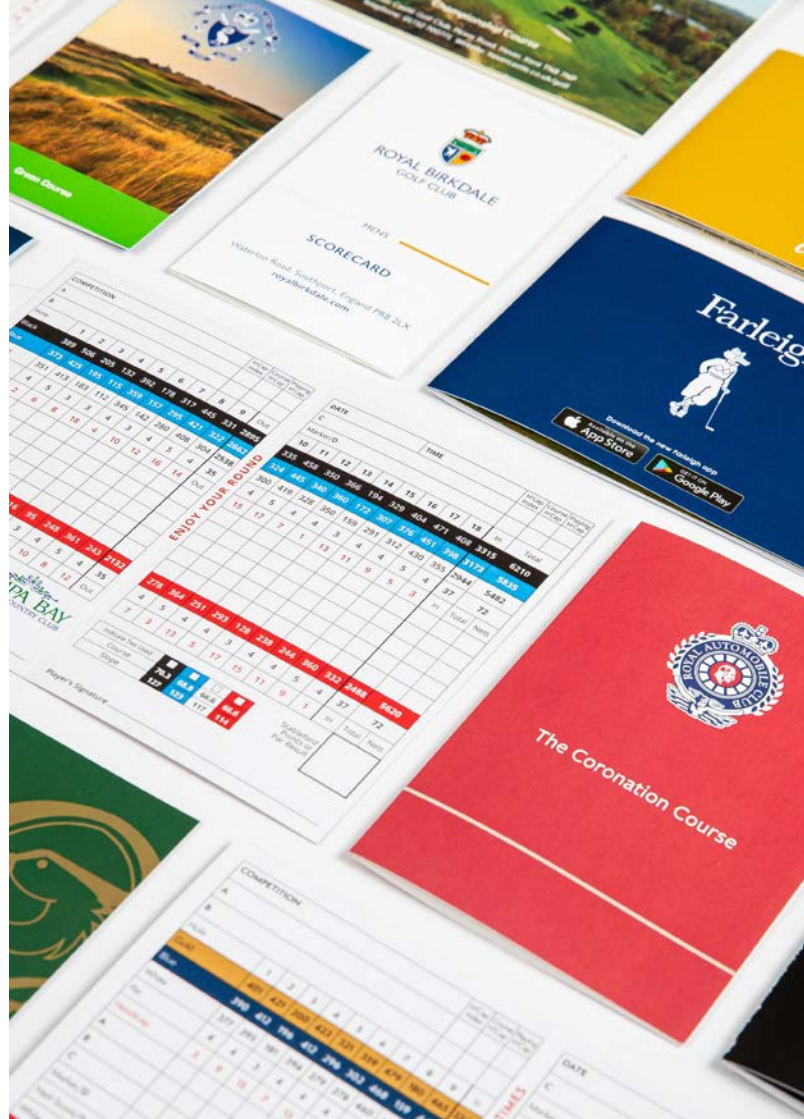

We use FSC-certified paper and bamboo, ensuring they come from responsibly managed, sustainable forests that protect biodiversity and reduce environmental impact.

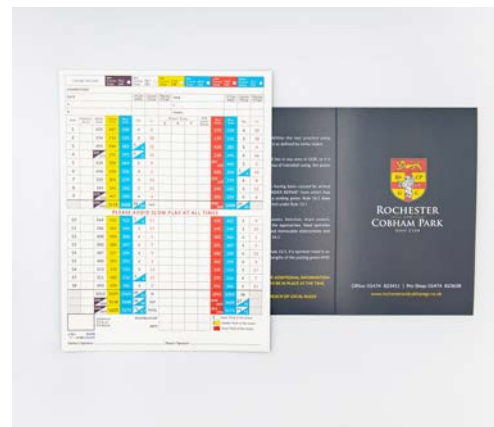

SCORECARDS

Scorecards are the most important printed product for any golf course. They are handed to every golfer and used throughout the duration of a round. A bespoke design that is unique to your club is vital to present your course in a professional manner and leave a lasting impression on your golfers.

Eagle offers a full design service including advice on layout and a detailed proofing process right the way through to production.

COURSE GUIDES

Eagle are a leading supplier of high quality course guides, delivering products for clubs across the United Kingdom, Europe, Asia and the United States.

Our high quality course guides showcase your entire course and provide accurate yardage information that is designed to help golfers get the most out of their game, whilst at the same time offering them a superb memento of their visit.

BAG TAGS

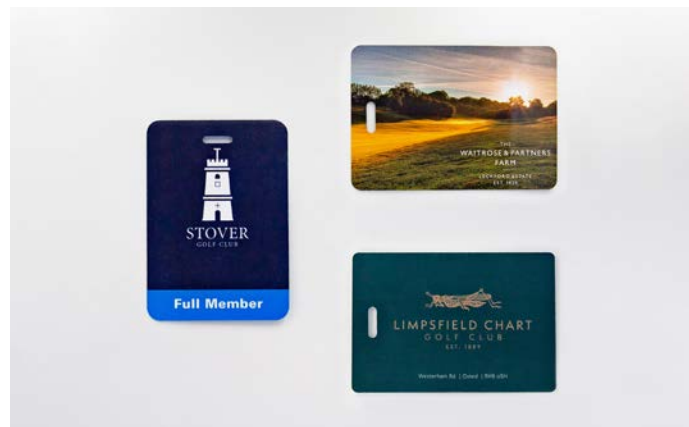

A well designed and manufactured bag tag is eye-catching, useful for identification purposes and creates a strong sense of belonging to your golf club.

Eagle provide a variety of tag options including metal, plastic and bamboo.

Single Colour Tag

Membership Tag

Environmentally Friendly Bamboo Tag

Premium Metal Tag

GREEN FEE TICKETS

Green fee tickets are a useful item for any golf club looking to welcome visitors and guests. The green fee tickets can be printed in full colour on high quality board and bound in booklets to suit your needs.

Green fee tickets are branded to align themselves with other golf club collateral, ensuring your brand stands out and becomes a part of your marketing strategy.

Luggage Green Fee

Full Colour Green Fee

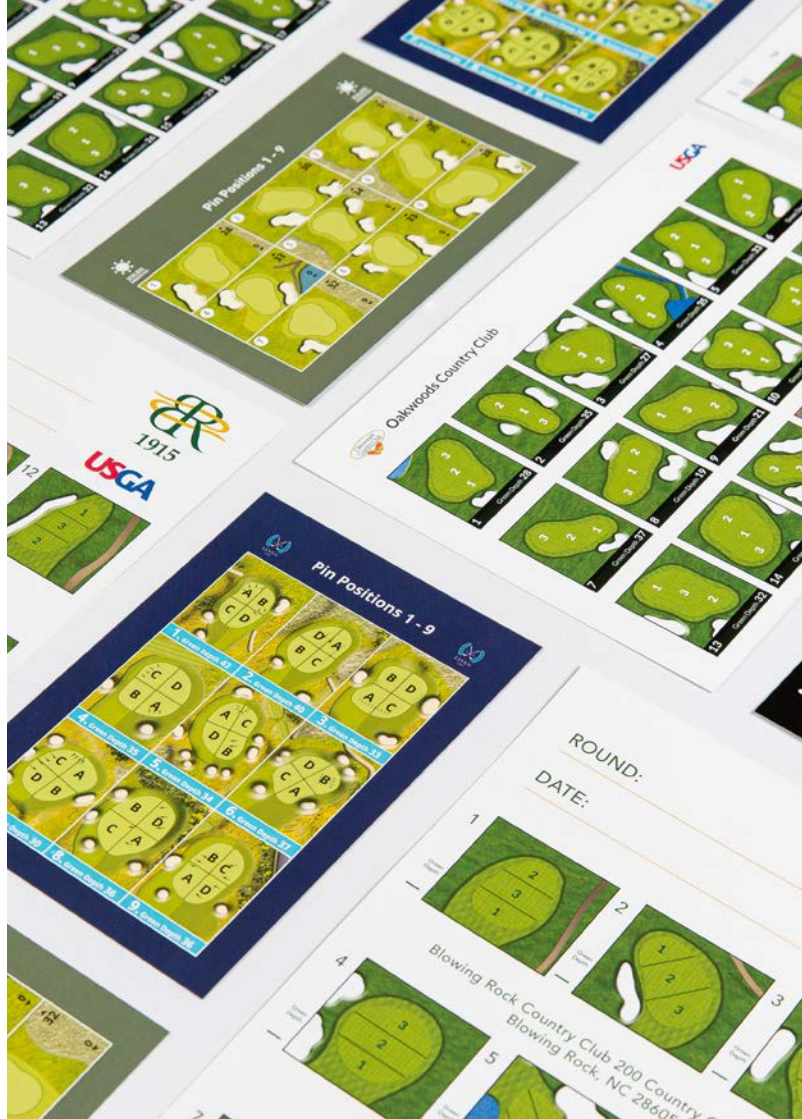

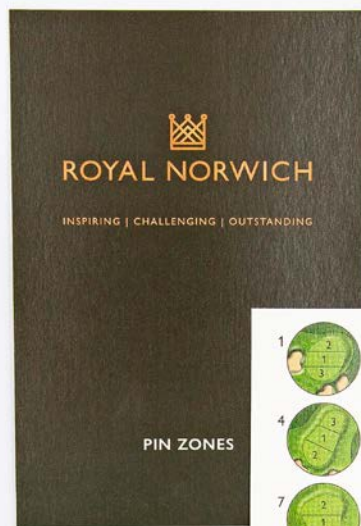

Pastel Green Fee

PIN POSITIONS

Pin position cards typically show all 18 greens, illustrated to give the golfer an idea of the shapes of greens and surrounding hazards.

With a simple letter, colour or number to represent the location of the hole on each green, a pin position sheet can be very useful for a golfer wanting that additional detail and information.
